STRONGER TOGETHER PARTNER NETWORK

Rockwell Automaton Premier Partner Status
Intel IoT Market Ready Solutions Partner
Intel's IoT Board of Advisory
Cisco Gold Certification

INTEGRATING HOLOGRAPHIC SOLUTIONS:

Wachter delivers new interactive ways to create human connections through the "PROTO" Hologram. Brands constantly seek to create unique and powerful customer interactions to increase foot traffic and brand loyalty. Through Hologram technology, customers experience live and interactive communication through live demos, wayfinding for product locations, and direct product ordering. Together our team of experts understands your digital challenges. The right expertise is necessary when complex integrations and solutions are in high demand. Wachter is at the forefront of leading edge-to-edge solutions delivering the most challenging scenarios through proper analysis, design, engineering, installation, and maintenance. We are trusted advisors guiding the latest technology integrations, enabling brands to captivate customers with unique digital technology solutions that create phenomenal human connections.

HOW PROTO HOLOGRAPHIC SOLUTION WORKS:

Communication from PROTO AWS to public internet utilizing Cloudfront for regional content delivery.

Audience

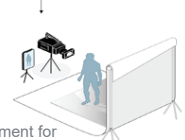

Linux based operating system without accessible SSH. Communication over non-standard SSL locked down certificate and whitelisted IP.

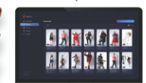

PROTO CLOUD environment is protected by multi-factor authentication and all uploaded content is encrypted at rest.

PROTO live

Customer

PROTO CLOUD Management for devices and content accessible on desktop and mobile devices.

Encrypted transmission from PROTO capture unit directly to PROTO CLOUD, utilizing Elemental.

wachter + PROTO
