DEMOCRACY

DIGITAL4 DEMOCRACY

DIGITAL4 DEMOCRACY (D4D) is designed to meet the specific needs and challenges of public authorities, promoting transparency, collaboration and effective governance.

Fully modular and customisable platform

More transparency towards the public

More efficiency, time, and cost saving

FOR PARLIAMENTS & LARGE SCALE INSTITUTIONS

D4D automates the entire process from collecting audio-video to final publication, with extensive workflow management capabilities of the entire reporting process, recording, segmentation, multiple revisions, and full integration with the most advanced conference system with or without Dante protocols.

## FOR MEDIUM & SMALL SIZE GOVERNMENT ADMINISTRATIONS

D4D offers a simplified workflow to collect audio-video recordings, automated transcriptions, editing suite, digital signatures, and final publication.

D4D

- ✔ Is a finely-tuned digital platform for public authorities.
- ✔ Features our advanced automatic reporting and editing suite.
- ✔ Enhanced with fully tailored modules for your needs.
- ✔ Provides a seamlessly integrated approach to oversee the reporting process, publishing, and indexed archiving.

WITH DIGITAL4DEMOCRACY

- ✓ Automate reporting tasks effectively using advance technology for official reports.

- ✓ Create an accessible digital media library that is indexed and fully searchable using keywords.

- ✓ Receive alerts for specific topics discussed in assemblies, promptly select, and share clips on social networks.

With a wealth of experience dating back to 1985, CEDAT85 focuses on AI-enhanced solutions tailored for public authorities.

We cater to a varied international clientele spanning the public sector, encompassing institutions such as the European Parliament, Scottish Parliament, the Italian Chamber of Deputies, Italian Senate, Ministry of Interior, Prime Minister's Office, and numerous city councils.

We employ state-of-the-art methodologies rooted in Deep Neural Networks and Machine Learning, earning recognition from Gartner five times, and maintaining our leadership.

We have built a strong foothold in the speech technology market, backed by a team of highly proficient experts.
